The 'Game' is to identify 'Good + Cheap' stocks

But, 'Good' stocks are really expensive

And the 'Cheap' stocks are duds

That is why we rely on 'Special Situations' to give us Good cos at a Cheap price.

Special Situation investing, in a nutshell

Demerger listing

Conglomerate spins out non-core unit.

Stock most likely lists lower than Fair Value.

Usual Fund based selling emerges.

Funds do not want to own the non-core or the small business due to regulatory reasons etc.

We Buy, We Wait.

Make a Basket, Diversify and wait patiently for the thesis to play out.

Start

End

What is the **biggest** benefit of 'Special Situation' investing?

Investors can get extremely attractive 'entry' valuations due to various reasons like **Forced Selling from institutions in Demergers, Value Discovery in Delistings,** Following the **smart money with Promoter Buying,** Buying into '**Promoter Change**' which results in **tremendous improvement in Corporate Governance.**

Basically, **Special Situations** will help us to do Value Investing, in its purest form.

What we are looking for

1

Most important: A 'Double Special Situation'.
Demerger followed by an Open Offer.

2

Demergers, Open Offers.

3

**Promoter Change, Delistings, Rights
Issues.**

'Risk Management'

This is important.

Funds are deployed gradually, there is no rush to deploy, all at once.

This way, we try our best to deal with near term volatility.

Fresh ideas for new clients.

Margin of Safety is important for new clients. Hence, we try our best to avoid buying past ideas which may have run up a lot already.

Effective 'Communication'

Isn't it important that your Fund Manager be Virtually present for you?

An industry first, Once you become a client of Negen PMS, your number will get added to a dedicated 'Whatsapp Broadcast List', managed directly by the Founder.

So that, if there are any portfolio related updates like, 1- A good time to add money on market dips, or 2- Portfolio companies related updates like Earnings growth or General updates, you will be updated in 'real time'.

Basically, we will be with you, all the way, in this great adventure ahead.

Our Journey

Negen Capital PMS was launched in November 2017. We are predominantly a small cap and midcap focused pms with a keen interest in identifying value investing opportunities via special situations like demergers and Spin offs and has reached the AUM INR 900 Cr. as on June 2024, having a post fee 3 year TWRR of +28.28%.

The Investment objective of the special situations and technology fund will be to focus mainly on corporate actions and demergers, and being sector agnostic, to generate long term (up to 3 5 years) capital appreciation by investing in companies that are undervalued due to special situations, such as corporate actions, and are trading below their intrinsic value and also general value investing with the objective of benefiting from the potential price inefficiencies that may arise during the process.
