Our Journey

Negen Capital PMS was launched in November 2017. We are predominantly a small cap and midcap focused PMS with a keen interest in identifying value investing opportunities via special situations. We have reached an AUM of INR 956 Cr. as on January 2025 with post fee 5-year TWRR of +33.59% v/s Benchmark Index of 18.25%.

Our PMS strategy focuses on special situations like demergers, open offers, changes in promoters, and others, while maintaining a sector-agnostic approach. The aim is to generate long-term capital appreciation by investing in undervalued companies and applying value investing principles to capitalize on potential price inefficiencies.

3 Yr TWRR +22.05% vs +14.17% for Benchmark

5 Yr TWRR +33.59% vs +18.25% for Benchmark

Note: Past performance of the Portfolio Manager is not necessarily indicative of likely future performance. Performance information is not verified by SEBI.

Negen Capital PMS has maintained its highest '5 Star' rating as PMSBazaar and CRISIL rankings for FY21 and FY22

The 'Game' is to identify 'Good + Cheap' stocks

But, 'Good' stocks are really expensive

And the 'Cheap' stocks are duds

That is why we rely on 'Special Situations' to give us Good cos at a Cheap price.

Special Situation investing, in a nutshell

Demerger listing

Conglomerate spins out non-core unit.

Stock most likely lists lower than Fair Value.

Usual Fund based selling emerges.

Funds do not want to own the non-core or the small business due to regulatory reasons etc.

We Buy, We Wait.

Make a Basket, Diversify and wait patiently for the thesis to play out.

Start

End

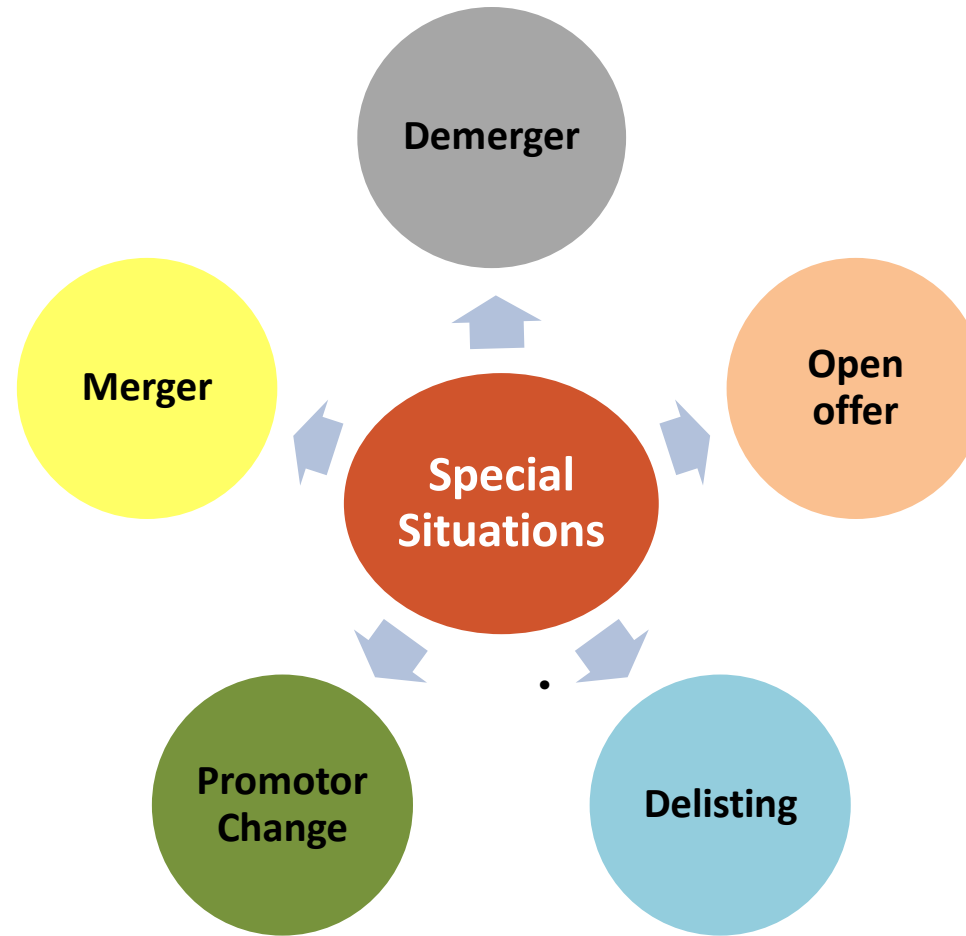

What is the **biggest** benefit of 'Special Situation' investing?

Investors can get extremely attractive 'entry' valuations due to various reasons like **Forced Selling from institutions in Demergers, Value Discovery in Delistings**, Following the **smart money with Promoter Buying**, Buying into '**Promoter Change**' which results in **tremendous improvement in Corporate Governance**.

Basically, **Special Situations** will help us to do Value Investing, in its purest form.

What we are looking for

- **Most important: A 'Double Special Situation'**

Demerger followed by an Open Offer

'Risk Management'

This is important.

Funds are deployed gradually, there is no rush to deploy, all at once.

This way, we try our best to deal with near term volatility

Fresh ideas for new clients.

Margin of Safety is important for new clients. Hence, we try our best to avoid buying past ideas which may have run up a lot already

Effective 'Communication'

Isn't it important that your Fund Manager be Virtually present for you?

An industry first: Upon becoming a client of Negen PMS, your number will be added to a special WhatsApp Broadcast List, personally managed by the Fund Manager.

So that, if there are any portfolio related updates such as:

- Good times to invest money on market dips
- Earnings growth or general updates of portfolio companies

Basically, we will be with you, all the way, in this great adventure ahead.
